

The Corporate Email Client

Access your corporate email¹ on your handset

The Corporate Email Client for regular cell phones (Brew), offers employees the tools to stay more productive by doing business directly from their phones.

Using Microsoft® Exchange ActiveSync®, Corporate Email connects devices directly to Microsoft Exchange servers (2003 SP2, 2007, and 2010), IBM Lotus Notes, Google Apps, Zimbra, and Hotmail giving users real-time access to email, contacts, global address lists (GAL), and calendar. Corporate Email is available for various features phones and 3G Multi-Media phones.

Key Features

- Near real-time synchronization of email, calendar, and contacts.
- Quick access to global address lists.
- Integrated calendar and tasks management.
- Schedule or reply to meeting invites right from your phone.
- Personal email (POP3/IMAP4) support.
- View attachments (word, excel, ppt, PDF, jpeg, png, etc).
- Choice of synchronization options:
